194, Churchgate Reclamation, Mumbai-400 020

Tel-022-22830216, Fax – 022-22854981, E-Mail: [sbtc@mahasbtc.com](mailto:sbtc@mahasbtc.com)

No. SBTC /RBTC/2021/1271

Date: 12/08/2021

### ORDER

**Sub: Granting status of Regional Blood Transfusion Centre (RBTC) for the purpose of acting as Mother Blood Centre.**

As per the existing guidelines of the NBTC, the licensed blood centres run by the Govt. hospital, Indian Red Cross and Regional Blood Transfusion Centres approved by the SBTC can only act as Mother Blood Centre for providing blood and blood components to the storage centres. The storage centres can get affiliated to more than one blood centre to ensure uninterrupted supply of blood. The SBTC has been authorized to grant the status of the RBTC to the licensed blood centres considering the regional needs of blood and blood components so that network with blood centres and storage centres in the region can be established to have two way linkage for the exchange of blood and blood components.

2. Instead of granting status of RBTC to individual non-Govt. blood centres, the proposal for grant of the status of RBTC to such of the blood centres whose minimum annual blood collection was 2000 blood units and above and having components separation facility subject to fulfillment of all other conditions like transport facility, TTI screening by Elisa method facility, imparting periodic training to the storage centre staff, computerization of the blood centre, regular AMC/CMC and calibration of the equipments etc. was under consideration of the SBTC.

3. Since the proposal was in the larger interest of the patients to get supply of blood and blood components to the storage centres in the hospitals in rural area as well as urban area, the Governing Board of the SBTC in its 46<sup>th</sup> meeting held on 08.07.2021 has accorded approval to declare licensed blood centres who fulfill the conditions as stipulated by the NBTC as Regional Blood Transfusion Centres (RBTC) so that those RBTCs can provide blood to the storage centres.

4. In view of the above and as authorized by the Governing Board, the enlisted licensed blood centres whose minimum annual blood collection is more than 2000 units and having component separation facility are declared as "Regional Blood Transfusion Centres" for a period of 2 years from the date of issue of this order which can be renewed after 2 years based on the performance and fulfillment of conditions for a further period of 5 years and at 5 years interval thereafter.

5. Terms of conditions:

- (1) Consequently the enlisted blood centres would act Mother Blood Centre for supply of blood to the Storage Centres. The designated RBTC should create network with blood storage centres in the region and establish two way linkages for exchange of blood and blood components.
- (2) As a mother blood centre, the names of the storage centres with whom tie - up has been made will have to be submitted at the time of renewal of the status of the RBTC after 2 years.
- (3) The designated RBTC should provide round the clock service
- (4) The designated RBTC should maintain minimum collection of more than 2000 units per annum with voluntary contribution.
- (5) The designated RBTC should continue with the component separation facility.
- (6) The designated RBTC should provide adequate facilities to store and transport blood and blood components at required temperature and ambient conditions
- (7) The designated RBTC should have minimum TTI screening by ELSIA facility for atleast 80% collected units and should be practicing tube method for blood grouping and cross matching
- (8) The designated RBTC should impart periodic training to staff attached with blood storage centres for blood grouping, cross matching, storage, identifying haemolysis and record keeping and submit report to SBTC.
- (9) All equipment in the blood centre should be under AMC/CMC and calibrated and subsequent renewal every year as mandated under Drugs and Cosmetics Act
- (10) All record books should be available with the designated RBTC as stipulated in the Drugs and Cosmetics Act 1940 and Rules 1945 there upon
- (11) The designated RBTC should have computer and trained staff to maintain database of donor, blood and products and inventory of demand and supplies made on daily basis.
- (12) The designated RBTC must update its reports and stock status of blood availability blood group wise online with E-raktakosh and mahasbtc.org
- (13) The designated RBTC should provide free blood to the Thallasemia, Hemophilia, Sickle Cell anemia and other blood related dyscrasia requiring repeated blood transfusion.

6. If any of the blood centre in the enclosed list is not interested for the status of the RBTC for the purpose of Mother blood centre intimation should be given within fortnight from the date of issue of this order to SBTC so that the RBTC status can be cancelled.

7. The SBTC also reserves right to cancel the status of RBTC of the any of the licensed blood centres in the list, if the blood centre makes breach of any condition stipulated above or found involved in violation of the rules and regulations of the NBTC/SBTC.

 12.08.2021  
(Dr. A.S. Thorat)

Asst. Director,  
State Blood Transfusion Council,  
Mumbai

To,  
Blood Centre Incharge as per enclosed list.
